Included features:
- Heavy duty 15" tires
- Electric Brakes
- Detachable single axle trailer
- Aluminium diamond plate fenders
- Light weight aluminum poles.
- Split pole design.
- Simple storage brackets for quick and easy tear-down.

Options:
- Steel treatments.
- Powder-Coated
- Hot-dipped galvanized
- Rhino

Additional options:
- Aluminum Diamond Plate Storage Tool Box
- Anodized aluminum pole color choices
- Banner kit

CE, ADIPS, ASTM and TUV approved.
The perfect jumping system for your facility or business venture. With our extensive range of Bungee Trampoline systems, we can design a version that fits your needs and budget. Bungee Trampoline systems can be either mobile or stationary, for indoor and outdoor use.

The Bungee Trampoline is a safe and accessible way for children and adults to experience all the thrills of acrobatics and Bungee jumping, but with none of the risks. On Vertical Reality’s Bungee Trampoline Systems we don’t “Monkey Around”, jumpers can attain heights in excess of 24 feet in the air!

How it Works

The participant is first centered on one of our inflatable trampolines, then secured in a custom adjustable harness by a trained operator. The combination of an electric winch and power cords allow the jumper to catapult up to 24 feet in the air! This combination system of lifting and use of elastimers dramatically enhances the jumpers ability to perform front and back somersaults as well as reaching heights that would normally be impossible. Bungee Trampoline systems can be either mobile or stationary, for indoor and outdoor use.

Vertical Reality’s Easy Pole Lift System ensures quick and easy set-up and breakdown. The electric winch hoists the bungee pole into place safely and securely which is then pinned into position on a ground-mount support system.

Mobile 4-Station Bungee Trampoline with Detachable Trailer and in Transport position.

Compact transport position.

Comfortable, padded, safe jumping harness.

CE, ADIPS, ASTM and TUV approved.
ALL NEW!
The Expandable Bungee System™

Expandable Bungee Systems are economical because when adding additional stations, limited equipment is needed to upgrade. Upgrade from 1 to 4 stations as your budget allows. Self standing portable apparatus requires no additional anchoring.
